

# Our annual installation targets for the rollout of smart meters 2026

## 2026 - Targets

Utility – Gas or Electric	Reporting Period Start	Reporting Period End	Calculated Planned Annual Target for Rollout Year Four (2026)
Gas	01/01/2026	31/12/2026	0
Electric	01/01/2026	31/12/2026	0

# Our performance for the rollout of smart meters 2025

From January 2022, suppliers must comply with a regulatory framework for the rollout of smart meters as defined by Department for Energy and Net Zero [DESNZ] which includes publishing our targets and performance for each rollout year.

## 2025 - Performance

Utility – Gas or Electric	Reporting Period	Target	Installed	Target Met
Gas	2025	0	771	Yes

- **Calculated Planned Annual Target [Gas]** our target for 2025 had already been achieved due to the installation of Qualifying Metering Systems prior to January 2022. However, we continued to roll out smart metering systems for our Gas Customers installing a further 771 during the year.

Utility – Gas or Electric	Reporting Period	Target	Installed	Target Met
Electric	2025	0	10	Yes

- **Calculated Planned Annual Target [Power]** Our target for 2025 was met.
